

GIMAX PREMIUM 25, 30, 35 kW

Condensing boiler, 25,30 e KW

GiMax PREMIUM

A powerful, reliable, ecological boiler, equipped with a condensing heat exchanger with high efficiency, completely made in Italy. The boiler is equipped with an electronic card with microprocessor able to manage the system so that it always works with maximum efficiency and minimum waste. Hydraulic unit made entirely of plastic. Components of excellence complete a device that cannot be missing where domestic comfort requirements are high, as is the interest in a clean, elegant and livable environment.

Available in 25, 30, 35 kW
