

Thea 65 MN Kondens

Condensing wall hung Boiler for Heating

Even outside the area of D.H.W. boilers, our work philosophy does not change: we chose and adopt concrete and exclusive solutions in order to reach and share important goals.

Aiming for improving the future more and more, we have been able to obtain saving and efficiency while respecting the environment. The always perfect combustion and the features of the special burner permit to decrease the polluting fumes.

Power Efficiency + Economical Efficiency + Ecological Efficiency = Thea 65 MN Kondens, “a perfect

system for a perfect fulfillment”
